President's letter

Dear members,

Writing this foreword has become a particularly enjoyable annual occasion for me. Looking back, it is gratifying to note, yet again, that the activities of our beloved Chamber continue to grow, both in scope and quality, and that this is nothing less than a reflection of the dynamism of Spanish companies and professionals arriving in both Belgium and the Grand Duchy. Furthermore, the production of this Yearbook allows us to reflect and set our sights on the priorities for the coming year. 2026 is a year which, following the new war in the Middle East, promises to be even more complex and challenging for businesses and commercial traffic than 2025.

In the daily life of the Chamber, if there is one milestone to highlight in 2025 it is the move to our brand-new headquarters. After almost three decades on Rue Belliard, we have relocated to Avenue des Arts, following an investment of over one million euro. This will not only result in improved services for the Chamber's members, but also provides a further guarantee of our organisation's long-term sustainability. The choice of location was no accident; it brings us closer to the main Belgian institutions (Federal Parliament, Government headquarters, Senate, Flemish Parliament, Wallonia-Brussels Parliament, etc.), all within walking distance, and to Gare Central, a key rail link to the whole country and the Grand Duchy. At the same time, we continue to maintain a presence in the European Quarter, a factor that was also important to many of our member companies.

Continuing with significant milestones, 2025 also marked CAF securing the so-called *contrat du siècle* to replace the SNCB's trains, a contract whose value could easily exceed three billion euros. This is the largest contract ever secured by a Spanish company in the Benelux region, and it should serve as a catalyst for the entry of new Spanish companies into both markets. At the Chamber, we are particularly proud to have contributed our small part. This tender has also taught us some lessons, such as the need to strengthen communication and the profile of the 'Spain Brand'.

A similar conclusion was reached by the study we published in collaboration with the Elcano Royal Institute and the Carlos de Amberes Foundation on mutual perceptions between Spaniards and citizens of the Benelux countries, which we presented in Madrid last March (entitled *Spain and the Benelux Countries: Mirror Images*). The study highlights both the positive and negative aspects of the perceptions held by our respective peoples. Fortunately, the former are by far in the majority, but overall, they indicate where we should focus our efforts in terms of communication.

2025 has also marked a turning point in Spanish defence companies' access to the Belgian market. With this objective in mind, we organised an event in the autumn with the Belgian Minister of Defence, Theo Francken, which has already begun to bear fruit with results that we hope will be even more abundant in 2026. Among these, we hope to see the creation of a bilateral 'Industry Day' to bring the Spanish and Belgian defence ecosystems closer together, which should generate new opportunities for our companies.

Last but not least, culture and the arts also took the stage in 2025 with the celebration of Europalia, a biennial event in which Spain was the guest of honour, and whose opening ceremony was attended by Their Majesties from both countries. It was an honour for the Chamber to have helped secure sponsorship from our member companies, in what was a fine example of public-private partnership.

This public-private cooperation will remain a key focus of our Chamber's work in 2026, in collaboration with our country's two new ambassadors to the Benelux countries, Jose Maria Rodriguez Coso and Nieves Blanco Diaz, with whom we have been working closely and effectively since they took up their posts last summer.

From a Luxembourg perspective, the forthcoming visit of the Grand Duke and the entire Luxembourg government to our country is seen as a unique opportunity to strengthen this public-private partnership at a bilateral level, as well as the economic and trade ties between the two countries.

At a time when violations of international law and the imposition of barriers of all kinds – whether trade, physical, migration-related or even restrictions on free movement within the EU's own internal market – are becoming the norm, everything we can do to bring our countries, our economies, our businesses and, ultimately, our people closer together is worth doing. And this is what our Chamber will continue to prioritise throughout 2026, just as it has done for over a century.

Marta González Benguria

Our Team

Marta González Benguria

Secretary General

Secretary General since 2020, Marta is in charge of coordinating the day-to-day management of the Chamber's operations. During her 12 years in the institution, she has helped many Spanish companies to set up in the Belux. Marta maintains a permanent contact with members and potential member companies and is always actively looking for new activities and collaborations, that may arise for the Chamber.

In her spare time, she is a movie lover, never says no to a Belgian beer and is planning to start a fund-raising campaign to improve rail links between Belgium and Luxembourg.

secretariageneral@e-camara.com

Andrea Galante

Project Manager

Andrea works as a European project manager. In particular, she is in charge of managing and coordinating the SoftImprove, TEX4.0 y W4TEX projects within the framework of the European Commission's Erasmus+ programme, on top of managing the Erasmus for Young Entrepreneurs programme.

In her spare time, she enjoys freediving, cooking and pottery. She also enjoys going to the opera and inline skating, whenever the weather allows it in Brussels.

andrea.galante@e-camara.com

Jon Guezala

Communications Officer

Jon ensures that the Chamber's communication channels remain content-rich and that members take advantage of the dissemination opportunities included in their membership. He is also responsible for the design and layout of the Chamber's printed publications, such as this Yearbook.

When he is not working, he spends his time playing the guitar, reading novels or perfecting his potato tortilla recipe (with onions, of course).

comunicacion@e-camara.com

On behalf of the Chamber's team and Board of Directors, we would like to extend a special thank you to Sara Sánchez, our Trade & Business Development Manager from 2021 to 2026, without whose work many of the activities featured in this Yearbook would not have been possible. Over those five years, Sara played a key role in the development and growth of our Chamber. We wish you the very best of luck in your future endeavours!

The Chamber's team would also like to thank all the interns who worked with us in 2025: Ignacio, Eguzkiñe, Inés, Julen, Manou, Laura, Adriana, María, Carmen, Paloma, Ana, Miquel and Miriam.

Who are we?

The Official Spanish Chamber of Commerce in Belgium and Luxembourg is a non-profit association with more than 100 years of history. The first written records attesting to the existence of the entity date back to the early 1920s.

The Chamber plays a significant role in trade and economic relations between Spain, Belgium and Luxembourg and its main objective is the development of trade and investments between these three countries.

The Chamber offers its member companies a wide range of services, as well as facilitating business networking between them. The Chamber is publicly recognized as one of the most prestigious dialogue tribunes between companies and European institutions, based in Brussels and with a delegation in Luxembourg.

The management of European programmes has also gained prominence in recent years among the Chamber's activities and it has specialised in projects for the internationalisation of SMEs, the training of their workers and entrepreneurship.

The Chamber is part of the Association of Official Spanish Chambers of Commerce in Europe-Africa-Asia-Oceania (FEDECOM) and maintains a permanent contact with the Spanish Chamber of Commerce, which provides its members the ability to benefit from the Official Spanish Chambers network around the world.

The Chamber is supported by the Spanish Ministry of Economy, Trade and Enterprise.

What does the Chamber do for the companies?

The Chamber offers a wide range of services to both member and non-member companies including information and support, promotion opportunities, commercial activities and networking events.

In particular, the Chamber facilitates business through a wide range of commercial services and provides essential logistical and technical support. In addition, its events enable companies to develop and expand their network of professional contacts and provide essential information on the Belgian, Luxembourgish and Spanish markets.

Events

One of the main objectives of the Chamber is to promote networking among its member companies. To achieve this objective, the Chamber organises a considerable number of events every year and offers companies its extensive experience in this field to advise them in the planning, coordination and execution of these events in Belux.

1. Business circle

The presence of the Chamber in Brussels and Luxembourg allows the organisation of activities with personalities and political decision-makers of the European and local institutions, bringing Spanish companies closer to and fostering dialogue with representatives of European decision-making bodies and participating in the monitoring of EU and Belgian-Luxembourgian policies.

2. Conferences

These conferences cover a wide range of topics and are generally organised in collaboration with member companies, which are offered the opportunity to use the Chamber's independent platform to promote their company, develop new clients and increase their visibility.

3. Trainings

The Chamber's training activities are designed to offer member companies and their network of contacts unique training activities that respond to their specific needs, either because of the profile of the participants or because of the contents developed.

4. Exclusive events of the Working Committees

Our working groups are spaces for analysis, reflection and debate, where ideas and opinions can be shared in order to deepen the different areas of interest, according to the typology of the members.

There are currently three committees: Competencia Spain, Spanish Financial Forum and the Forums Committee.

5. Breakfasts and afterworks with members

In order to promote networking and encourage business development among its member companies, the Chamber organises breakfasts and afterworks. During these events, participating companies present their activity and interact with other members belonging to sectors of activity of interest to them.

6. Business events

The Chamber organises four corporate events per year: New Year's Cocktail in Brussels, New Year's Cocktail in Luxembourg, Gala Dinner and Company of the Year Award. These events are attended by representatives of companies from Spain, Belgium, Luxembourg and European public bodies.

7. Sporting events

The Chamber organises, in collaboration with its partner companies, sport events that allow its members to connect with other members and companies while having fun.

8. Tastings

The Chamber organises introductory tastings of Spanish wines, beers and olive oils in Belgium and Luxembourg.

Business circle

The Chamber, through its 'Business Circle' platform, is considered one of the main platforms for business networking in Brussels and Luxembourg, thanks to the organisation of events with local personalities and high-level representatives of the European institutions.

The aim of these activities is to promote dialogue between Spanish companies and local and European decision-making bodies, participating in the monitoring of EU and Belgian-Luxembourg policies.

Seventh edition of the training course | November 19th-20th

"Advocacy strategies in the European Union"

In 2025, the Official Spanish Chamber of Commerce in Belgium and Luxembourg organised the seventh edition of the training course "Advocacy strategies in the European Union" in Brussels, aimed at Spanish companies and associations.

More than fifteen representatives of national companies and sectoral associations took part in the training in person or online, interested in learning first-hand about the tools to establish an effective dialogue with the EU authorities, and motivated to anticipate both the opportunities and risks arising from the political and legislative action that takes place in Brussels.

The training was given by renowned professionals from multinationals, business organisations, leading Spanish organisations and European civil servants.

The first day featured presentations by Miguel Ceballos Barón, senior expert at the European Commission; Ignasi Guardans Cambó, consultant on European affairs, lawyer and former Member of the European Parliament; and Ignacio Sánchez Recarte, Secretary General of the European Wine Business Committee. In addition, the President of the Chamber, Pablo López Álvarez, was the one who presented the course. In the afternoon, speakers included Juan Alfonso Herrero Pascual (Director of European Affairs at Mercadona), Sebastián Rodríguez

(founder of European Campaign Playbook), Amir Campos (senior consultant at Schuman Associates) and Susana Garayoa (Head of European Institutional Relations at Zabala Innovation).

On the second day, highlights included contributions from Oriol Escalas Nolla, Spain's Deputy Permanent Representative to the EU, and Isabel Riaño, Director-General for Competitiveness and Trade at the Council of the European Union. Other speakers included Jacinto Pico (Director of European Affairs at Naturgy), and Patricia Trejo Zamorano (Head of Communications and Institutional Relations at the CEOE delegation in Brussels). In addition, participants had the opportunity to visit the European Parliament and the Council of the EU.

Picture: Students from the 2025 course during their visit to the Council of the European Union.

SPANISH FINANCIAL FORUM

With this working Committee, the Chamber has created a space for opinion and debate on economic and financial matters in Luxembourg, where professionals working in companies related to the provision of financial services, members of the Chamber can share experiences, establish collaborations, exchange information on trends in the sector and generate business opportunities.

The main objectives pursued are:

1. To inform about the particularities of the financial services industry in Luxembourg, mainly in professional environments in Spain, and to promote the generation of business opportunities between both countries in this sector.
2. To facilitate networking among the members of the Spanish Financial Forum in Luxembourg (SFF).
3. To act as a link with Latin American markets.
4. To favour the attraction and retention of Spanish talent to Luxembourg.

Participation in the SFF is exclusive for members of the Chamber whose activity is in the financial sector or complementary services. Companies wishing to apply for membership should send an email to: secretariageneral@e-camara.com.

"Women Who Inspire" Initiative

26/03/2025

On 26th March, the Chamber hosted the launch event for the "Women Who Inspire" initiative, which aims to strengthen women's leadership in Luxembourg. To this end, a round-table discussion was organised, bringing together Siofra O'Leary, former President of the European Court of Human Rights; Rosa Villalobos, Managing Director at Macquarie Asset Management; and Sara Cantelar, an entrepreneur who shared her thoughts on the challenges faced by women in the workplace.

Spanish National Day in Luxembourg

9/10/2025

On 9th October, the Chamber helped to organise the Spanish National Day celebrations, which were attended by H.E. Mr. Carlos Cuerpo Caballero, Minister for Economy, Trade and Business of the Spanish Government, and the Ambassador of Spain to Luxembourg, H.E. Ms. Nieves Blanco Díaz.

In collaboration with Embassy of Spain in Luxembourg

Second edition of the training programme | 1st - 12th September

"Introduction to the Luxembourg financial market"

In 2025, the Chamber held the second edition of the training programme "Introduction to the Luxembourg Financial Market", aimed at providing participants with the skills necessary to work in the financial sector of the Grand Duchy.

During the two-week course, participants were able to deepen their understanding of fundamental finance principles, building on their prior knowledge as graduates in Economics, Finance, Business Administration, International Relations, Financial Markets, or Law with an economic specialization.

The main added value of the programme lies in its focus on adapting these concepts to the Luxembourgish financial industry.

To this end, the Chamber designed an agenda of masterclasses taught by leading professionals from renowned companies in the sector, such as Anidris Academy, Bank Julius Baer, Caceis, CMS Luxembourg, Deloitte Luxembourg, DLA Piper Luxembourg, EY Luxembourg, Luxembourg for Finance, PwC Luxembourg, and the European Investment Bank (EIB).

Following the training course, and after successfully completing the selection process, the young graduates were offered a paid employment contract lasting at least six months with one of the programme's partner companies, enabling them to put what they had learnt during the course into practice.

The Chamber is currently organising the third edition of the programme, which is due to take place in September 2026.

Picture: Students from the second edition of the programme.

Working Committee COMPETENCIA ESPAÑA

The aim of this working group is to deal with specific issues and aspects of competition law and policy that may affect the Chamber's member companies. The three main objectives of the working committee are:

1. To serve as a meeting and exchange point of knowledge between member companies that are interested in or affected by the European competition policy.
2. To provide a platform to discuss in "neutral territory" between companies, lawyers, consultants, DG Competition officers and the Spanish administration.
3. To reinforce Spain's leadership as a European benchmark in Competition Law and Policy, both from a public and a private perspective.

For this purpose, the Committee foresees different lines of activity:

- Organization of work meetings to discuss specific issues and initiatives of DG Competition.
- Holding breakfast-debates or similar events with officers from the DG COMP and national authorities.
- When appropriate, the preparation of opinion statements on specific legislative/regulatory proposals.
- Preparation of documents/guides on competition policy, intended for Spanish companies.

To be part of this Committee, it is required to be a member of the Chamber and to have a proven experience in the field of competition. The companies interested in joining the Committee can send an email to: secretariageneral@e-camara.com.

Cecilio Madero takes over as president of Competencia España

1/12/2025

Cecilio Madero Villarejo, former senior official and Director-General at the European Commission with a long and distinguished career in the Directorate-General for Competition, took up the presidency of Competencia España at the Official Chamber of Commerce of Spain in Belgium and Luxembourg, on 1st December 2025.

trade and investment at the bilateral level, but also as a meeting point between officials and regulators on the one hand and the private sector on other. Fostering this dialogue seems fundamental to me, now more than ever, and that is what has led me to accept, without a shadow of a doubt, the Chamber's kind invitation. These are times in which the construction of Europe needs new impetus and

"Throughout my years at the European Commission, I have witnessed first-hand the dynamism and excellence of the Chamber, not only in promoting

Competencia España certainly has a role to play in this endeavour," said Cecilio Madero following his recent appointment.

Commercial Activities

In 2025, the Chamber assisted several Spanish companies seeking distributors and importers for their products in the BeNeLux region, with a view to expand into these three markets. Notable among these was the work carried out with a company specialising in industrial labelling and weighing solutions, a second company in the citrus fruit production and marketing sector, and a third supplier of plastics for the food industry.

This year, the Chamber also carried out a trade initiative for a training centre, consisting of seeking companies in Belgium interested in hosting a student specialising in machining within the metalworking industry.

In its collaboration with Spanish regional chambers, the Chamber continued to work with the Cantabria Chamber of Commerce for a further year. As part of the trade initiative, host companies in Belgium and the Netherlands were contacted for Vocational Training students interested in undertaking their Erasmus+ work placements abroad.

During the summer, the Chamber took the lead in seeking out importers and professionals in the food and drink sector who were interested in taking part in an online tasting event to promote Teruel ham, organised by the local Chamber of Commerce.

Later, continuing its work in this sector, the Chamber contacted importers to offer them the opportunity to take part in a reverse trade mission organised by the Chamber of Commerce of Reus. During this event, vermouth from the region – the birthplace of this spirit – was showcased to hotel and restaurant chains and beverage distributors in the BeNeLux.

The Chamber's commercial department ended the year by offering its support for the promotion of language immersion programmes in the BeNeLux region for foreigners organised in Toledo and of a brand offering marketing solutions in the pharmaceutical, food and education sectors.

Collaborating organisations

What is a trade mission?

Do you want to introduce your product or service in the Belux?

The Chamber can help you identify business opportunities to both improve the visibility of your company and make new contacts.

The Chamber will set a meeting agenda with all the companies from the Belux that have shown any interest in your products or services.

Assemblies

On 26th June, the Official Spanish Chamber of Commerce in Belgium and Luxembourg held its Ordinary General Meeting at its brand-new headquarters.

Among the topics discussed, Vice-President Abelardo García's review of the Chamber's financial situation stood out; he described the organisation's financial year as "very satisfactory" given its complexity, as the organisation had acquired new premises.

There was also a partial renewal of the Board of Directors, with seven new appointments to directorships, including that of a member of the Management Committee. The event was attended by the Economic and Commercial Counsellor, María Ortíz.

At the end of the year, on 10th December, an Extraordinary General Meeting was held in Luxembourg, at the residence of the Spanish Ambassador to Luxembourg. The meeting was attended by a large number of members, as well as the Ambassador, Nieves Blanco.

The meeting served to approve the budget for 2026, which provides for the repayment of the first half of the mortgage on the Chamber's new headquarters, as well as funds set aside to maintain the growth trajectory in Luxembourg through the recruitment of a new representative in the Grand Duchy.

FEDECOM

Association of Official Spanish Chambers of Commerce in Europe, Africa, Asia and Oceania

The Federation of Official Spanish Chambers of Commerce in Europe, Africa, Asia and Oceania (FEDECOM) is an international non-profit association that currently brings together the 23 Official Spanish Chambers of Commerce, recognised by the Ministry of Economy, Trade and Enterprise and established in Europe, Africa, Asia and Oceania.

FEDECOM's main mission consists of defending the general interests of its members, identifying business opportunities, standardising services, liaising with the supervisory authority and the Spanish Chamber of Commerce, as well as relations with international institutions.

EUROPALIA ESPAÑA

From October 8th 2025 to February 1st 2026

EUROPALIA, the biennial festival that offers a multifaceted artistic programme centred on a specific country or theme, celebrated its 30th edition in 2025 with a large-scale biennial.

With Francisco de Goya as its central figure and main inspiration, this festival highlighted Spain's cultural richness through the visual arts, architecture, theatre, dance, music, the performing arts, cinema and literature, and featured the participation of both renowned figures and lesser-known artists.

The Official Spanish Chamber of Commerce in Belgium and Luxembourg actively collaborated with the festival by assisting the Scientific and Cultural Office of the Spanish Embassy in Belgium in the search for sponsors for the event, thus facilitating its funding.

On 7th October 2025, King Felipe VI and Queen Letizia visited Belgium to officially open EUROPALIA ESPAÑA, where they were received by King Philippe and Queen Mathilde of Belgium at the Royal Palace in Brussels.

PROJECTS

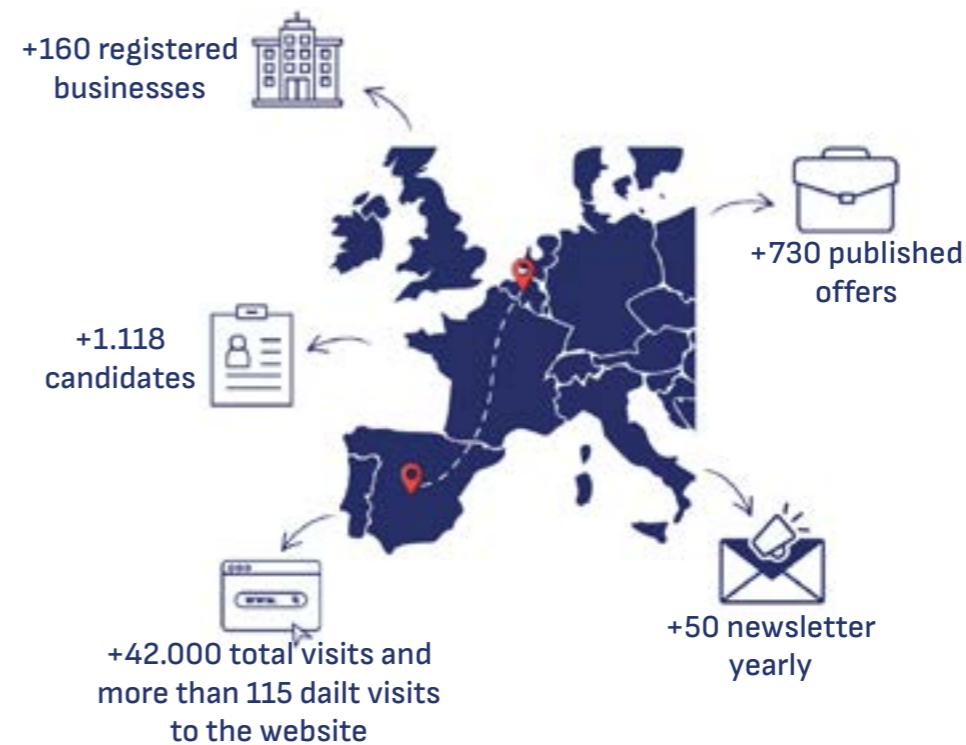

EMPLEO Belux

The Chamber manages, since 2014, the employment website EmpleoBelux which aims to facilitate the labour and social integration of Spaniards living in Belgium and Luxembourg.

Through the website **EmpleoBelux.com**, the Chamber makes this available to users:

1. General information on the Belgian and Luxembourg employment market, as well as practical aspects of living and integrating in both countries.
2. Job offers in Belgium and Luxembourg and information on employment opportunities in the European Institutions.
3. Registration for applicants and weekly newsletter with job-search oriented information.
4. News, activities and events of interest.
5. Publication of job vacancies and information on recruitment aids for companies.
6. Personnel pre-selection service aimed at companies.
7. Information on entrepreneurship and business creation.

EMPRENDE Belux

The aim of the EmprendeBelux programme is to support Spaniards in Belgium and Luxembourg on the long road to entrepreneurship and to accompany them in the consolidation of their business. The programme offers a set of tools aimed at guaranteeing the success of your project. Whether you have already started your activity as a freelancer or entrepreneur or you are still in the design phase, at EmprendeBelux we want to get to know your project, help you to boost your business and connect you with other entrepreneurs in Belgium and Luxembourg. The cost of participation in the programme varies depending on the legal status of your company and the stage of development of the project.

Newly established companies and future entrepreneurs (a company in implementation phase or established in the last 24 months):

210€

Companies established more than 24 months ago:

420€

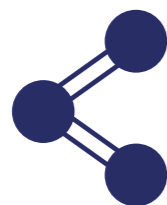

Freelancers

210€

COUNSELING

Support in the design of tailor-made plans for projects.

CONTACT NETWORK

Access to an extensive network of contacts and to expand the chances of success.

TRAINING

Promoting professional development through training activities.

PROMOTION

Dissemination of the activity through multiple communication channels.

Do you know about the EmprendeBeLux Guide?

The EmprendeBeLux Guide offers to future entrepreneurs and freelancers clear and practical information on the different stages involved in starting an activity in a foreign country. This publication is free and available in digital format. This is the first guide in Spanish to start a company in both countries. In September 2025, the seventh edition of the guide in Luxembourg was published.

CONTENTS

1. Main differences between starting a business in Belgium, Luxembourg or in Spain.
2. Previous steps to the establishment.
3. Steps to follow to set up as a company.
4. Entrepreneurship support in Belgium and Luxembourg.
5. Directory of companies and institutions related to entrepreneurship.

Download the EmprendeBeLux Guide for free in our website

ERASMUS FOR YOUNG ENTREPRENEURS

Erasmus for Young Entrepreneurs

For the past 11 years, the Chamber has been the local contact point for the Erasmus for Young Entrepreneurs programme in Belgium and Luxembourg. This European Union initiative offers new and experienced entrepreneurs from different countries the opportunity to collaborate, facilitating the transfer of knowledge, the acquisition of practical skills and the creation of long-term collaborative relationships across Europe and beyond.

As an intermediary, the Chamber plays a strategic role in identifying high-potential entrepreneurs and matching them with host companies that suit their profiles, whilst monitoring the successful development of the relationship. In addition to administrative coordination, the Chamber offers support to participants throughout the exchange, contributing to the programme's objectives of strengthening the European entrepreneurial ecosystem and offering:

- 1 To new entrepreneurs, the opportunity to develop their business plan and test their idea.
- 2 To experienced entrepreneurs, the opportunity to expand their network and explore new markets.

18th June, in Brussels

Workshop "Test your business idea" with students from the University of Antwerp

9th October, in Antwerp

Participation in the 35th Erasmus for Young Entrepreneurs Network Meeting en Bruselas

13th - 14th November, in Brussels

STORY OF THE YEAR

OUR FEATURED

As part of the Erasmus for Young Entrepreneurs (EYE) programme, the Chamber facilitated a successful cross-border exchange between Sora Minotta, a New Entrepreneur based in Luxembourg City, and Beatriz Teresa Pastallé, Host Entrepreneur in Berlin.

Over a six-month period, this collaboration provided Sora with direct exposure to an established European business environment, allowing her to strengthen her capabilities in marketing, client engagement, operational planning, and service positioning. The experience enabled her to refine her entrepreneurial approach while developing the adaptability required to operate in international markets.

For the host entrepreneur, the exchange generated reciprocal value through the integration of new perspectives, enhanced operational capacity, and expanded connections to the Luxembourg-German ecosystem.

Supported by the European Commission financial contribution, the mobility illustrates the tangible impact of entrepreneurial exchange in reinforcing SME competitiveness and accelerating knowledge transfer across borders.

The journey from Luxembourg to Berlin ultimately represents more than professional mobility — it embodies the circulation of expertise, the creation of durable partnerships, and the strengthening of a shared European entrepreneurial culture.

Connecting entrepreneurial talent between Luxembourg and Berlin

Erasmus for Young Entrepreneurs

YOUNG TALENT MOBILITY PROGRAMME

Since 2020, the Chamber collaborates in the management of the Young Talent Mobility Programme, an initiative of the Spanish Chamber of Commerce co-financed by the European Social Fund and framed within the Youth Guarantee System of the Spanish Ministry of Labour and Social Economy. The Mobility Plan is implemented by the network of Spanish Chambers and its main objective is to provide personal and professional development opportunities to young people participating in the programme and, at the same time, to boost the productivity of member companies.

Attracting young and qualified talent according to your needs

The Young Talent Mobility programme gives companies in Belgium and Luxembourg the possibility to employ for periods of 3 or 6 months qualified and enthusiastic young people who are looking to make the most of their experience abroad.

The flexibility of the programme makes it possible to adjust the search for talent to the specific requirements or needs of each company at any given time. The Chamber takes care of the initial management of each vacancy so that participating companies receive a pre-selection of candidates that fit their needs or requirements.

The mobility plan covers the full amount of the grant received by the beneficiaries, although the host company can, on a completely voluntary basis, complement it.

Improving employability and experience abroad

Through the mobility programme, beneficiaries have the opportunity to improve their employability by accessing a first work experience abroad. The diversity of profiles required by companies and the number of European countries included in the scheme allow finding opportunities adapted to each profile. In addition, through the mobility scheme, young people have the possibility to live an experience abroad while combining personal development with professional growth in the various participating companies.

HOW TO PARTICIPATE?

1. Contact the Chamber: info@e-camara.com
2. Fill in the company registration and vacancy forms
3. Choose candidate from a pre-selection
4. Complete the necessary administrative formalities

Hybrid Info Day to present the Young Talent Mobility programme to Belgian companies

31st January, in Brussels

SOFTIMPROVE

In 2025, the Official Spanish Chamber of Commerce in Belgium and Luxembourg coordinated the successful implementation of SoftImprove, a European project launched in 2022 and dedicated to enhancing employability and entrepreneurial resilience through the development of critical soft skills.

Thanks to SoftImprove, an online open course digital platform integrating immersive virtual reality scenarios has been developed to simulate real workplace environments. Developed by Immersium Studio, in collaboration with the Universitat Politècnica de Catalunya, the platform represents a significant shift towards experiential learning models that move beyond traditional classroom methodologies and enables participants to:

- Strengthen decision-making capabilities
- Enhance interpersonal communication
- Practice leadership behaviours
- Improve adaptability in fast-changing environments

FINAL CONFERENCE IN BRUSSELS "TRANSFORMING CAREERS: THE ROLE OF SOFT SKILLS IN ENTREPRENEURSHIP"

The event took place at Silversquare Europe, in Brussels, and was organised by the Official Spanish Chamber of Commerce in Belgium and Luxembourg and co-financed by the Erasmus+ programme.

The conference gathered entrepreneurs, employability specialists, institutional stakeholders and members of the business community to explore the growing strategic importance of soft skills within an increasingly competitive labour market.

Participants had the opportunity to discover emerging trends in soft skills development, explore the SoftImprove e-learning platform and learn about complementary European initiatives supporting professional employability.

DG VET

DG VET, the European project co-funded by the Erasmus+ programme and managed by the Chamber of Commerce, has been recognised as one of the best Erasmus+ Vocational Education and Training (VET) projects of 2024 by the Agence Erasmus+ Education et Formation (AEF-Europe). This distinction highlights the project's contribution to advancing innovative teaching approaches and enhancing employability across Europe.

DG VET, the project best evaluated by AEF-Belgium 2024

- The development of an artificial intelligence-powered tool designed to facilitate the navigation of training modules.
- The celebration of a project's final conference with the participation of Sergi Queralt, Senior Policy Advisor at GEOPA (Employers' Group of Professional Agricultural Organisations), Big Farm Brussels, and Mario Fuentes from CEJA (European Council of Young Farmers) — bringing together leading voices from the agricultural and training ecosystems to discuss the future of skills development.

The Official Spanish Chamber of Commerce in Belgium and Luxembourg continues to play an active role in TEX4.0, a European initiative aimed at strengthening the competitiveness of textile SMEs by supporting the adoption of Industry 4.0 technologies, sustainable production models and innovation-driven strategies.

TEX4.0 addresses one of the central challenges facing European industry — supporting SMEs in navigating the twin transition toward digitalization and sustainability.

The benefits of combining transnational collaboration with practical learning experiences are:

- Enhances the technological capabilities of SMEs
- Strengthens innovation capacity
- Improves resilience within the textile value chain
- Enhances competitiveness at European level

EXPERIENTIAL LEARNING IN ACTION
MyTEXperience, Larissa (Greece)

In this regard, in September 2025, the “Experiential Learning in Action: MyTEXperience” event was held, focusing on solutions in the Textile 4.0 sector, and was attended by consortium partners and entrepreneurs.

Over three intensive days, participants attended various presentations, took part in practical activities, participated in strategic discussions and went on a technical visit to the Bettina textile factory, which gave them a first-hand insight into contemporary production processes and the sector’s technological applications.

For more information, please contact us

texproject@e-camara.com

GATHERING

Picture: TEX4.0 Consortium members and entrepreneurs during MyTEXperience in Larissa (Greece).

W4TEX, Strengthening Women’s Representation in Senior Textile Positions, is a comprehensive project designed to empower women in the textile sector by offering them a specialised training programme focused on leadership skills. The programme is aimed at women from the project’s partner countries (Belgium, Spain, Greece, Sweden, Italy and Ukraine), although it is also aimed at women displaced by armed conflict, trainers, policy-makers, employment agencies and companies.

The W4TEX platform was launched in November 2024 with the “Be A Manager” course and, rather than merely an educational initiative, has gradually evolved into a European community connecting emerging female leaders with industry stakeholders.

Through collaborative activities and cross-border exchanges, the project helps to shape a more inclusive leadership culture within the textile value chain.

Services of the Chamber

Advantages of Joining the Chamber

Main Services

New Headquarters and Business Center

Communication Tools

Membership Categories

Contact Network

Advantages of joining the Chamber

1. SUPPORT FOR ACCESS TO THE BELGIAN AND LUXEMBOURG MARKETS

Through its commercial services, one of the Chamber's priorities is to offer technical support to Spanish companies wishing to set up or do business in Belgium and Luxembourg, as well as to strengthen the development of Spanish commercial activity already established in both countries.

In addition, the Chamber facilitates the development of commercial activity between Spain, Belgium and Luxembourg by offering companies a wide range of information, promotion and logistical and administrative support services.

2. EXPAND YOUR CONTACT NETWORK

The Chamber organises approximately 60 networking events throughout the year for members. These events provide access to a wide Spanish-Belgian-Luxembourg-European business and institutional network that allows companies to identify potential clients and partners and facilitates dialogue with European institutions.

3. INCREASE YOUR VISIBILITY

The Chamber of Commerce offers its members the opportunity to increase their visibility through its website, newsletter, Yearbook, social networks and mailing campaigns, as it has more than 6,000 contacts in the Spanish-Belgian-Luxembourgish business environment.

In addition, the Chamber offers its member companies the possibility to jointly sponsor and organise events. The aim is to offer member companies the opportunity to use the independent platform of the Chamber to promote their business, expand their customer base and increase their visibility.

4. FACILITATION OF DIALOGUE WITH THE EUROPEAN INSTITUTIONS

Thanks to its "Business Circle" platform, the Chamber is considered one of the most prestigious business networking platforms in Brussels.

The regular organisation of events with high-level representatives of the Commission, the Parliament and other European bodies has made the Chamber a reference organisation for dialogue with the EU institutions.

5. CONNECT AND INTERACT

The Chamber's Intranet Zone allows members to access offers, promotions and exclusive information for members, promote their product and/or service through the publication of special offers and connect with other members.

Main Services

Commercial Services

The Chamber offers a wide range of services that enable, both member and non-member companies, to strengthen their presence in Belgium, Luxembourg and Spain. These services include:

1. Search of business contacts

Through its extensive database, the Chamber compiles lists of companies located in Belgium, Luxembourg and/or Spain, by sector of activity and location.

2. Market analysis

In order to study the viability of the product/service in Belgium and/or Luxembourg, the Chamber develops reports with information on the sector, competitor analysis, product positioning, recommendations, as well as any kind of information considered to be of interest to the company.

4. Country specific day

In order to promote the existing internationalisation possibilities for companies, the Chamber participates, collaborating with local chambers and business associations, in talks to present business opportunities in the Spanish, Belgian and Luxembourg markets. The main objective of these conferences is to describe the main sectors of interest and to advise on the best way to access these markets.

5. Legal assistance

Aimed at all those companies that need a quick answer to a legal question or help, in the whole process of setting up in Belgium and/or Luxembourg, due to the reputed multilingual lawyers that are part of their list of members.

6. Job opportunities

The Chamber has a job portal, www.emploBelux.com, which allows its members to publish their job offers free of charge, to access the database of candidates, to learn relevant information on benefits and recruitment aids in Belgium and Luxembourg and to request free pre-selection support.

3. Commercial Agenda

The main objective of the agenda developed by the Chamber is the organisation of meetings, both face-to-face and virtual, with potential distributors, institutional bodies and potential partners or manufacturers, depending on the needs of the contracting company.

New Headquartes and Business Center

Spacious, renovated space

In 2025, the Chamber moved its Brussels headquarters to new, more modern and spacious premises, with the aim of further improving its day-to-day operations and becoming a hub for Spanish companies operating in the city.

The offices are located on Place Madou (Av. des Arts, 1) and serve as the Chamber's operational centre, from where personalised support is provided. Furthermore, the premises are equipped to host a variety of events, with a capacity of up to 70 people and comfortable facilities for attendees.

What do we offer at our headquarters?

1. Registered addresses and virtual offices
2. Meeting room rentals for events or training sessions for up to 70 people
3. Offices and coworking spaces location

If you would like to arrange a visit or request a quote, please email info@e-camara.com.

Photo: Views from the new headquarters.

Modern offices, designed to strengthen support for the Spanish business community

The Chamber's opening ceremony took place on 29th September 2025, attended by the Spanish Ambassador to Belgium, Jose María Rodríguez Coso, and the Spanish Permanent Representative to the European Union, Marcos Alonso Alonso, as well as members of the Chamber's Board of Directors, representatives from other Spanish institutions such as ICEX, and benefactor members and sponsors.

With its new headquarters, the Chamber positions itself as an institutional and operational hub for Spanish companies that already export or aspire to enter the Belgian or Luxembourg markets, offering commercial advice, networking with local stakeholders, and logistical and administrative support.

The Chamber's Board of Directors, after the Chamber's first General Assembly at its new headquarters on 26th June 2025

Communication Tools

Website

In 2025, it received more than 57,000 visits from users. The portal provides information of interest to partners from Spanish companies operating in the Belux and to Belux companies that want to develop business with Spain.

Newsletter

A fortnightly digital publication in Spanish and English sent to more than 6,650 subscribers in Belgium, Luxembourg and Spain. It includes references to the activities of the Chamber, its members and economic news and news of general interest for the business community in Belux. The Chamber produces two separate newsletters for the Belgian and Luxembourg markets, respectively.

Social Media

The Chamber's presence on LinkedIn has grown significantly over the past year, with more than 7,600 followers and over 280,000 page views, enabling us to disseminate and share information of interest, as well as details of our members' activities.

Yearbook

An annual publication detailing the Chamber's main services, a summary of its activities, and contact details for our members, organised by sector. It is distributed to the Chamber's network of contacts in both printed and digital formats.

Mailing

The Chamber periodically sends information of interest to its member companies by e-mail.

Tailored events

The Chamber offers its members the possibility to jointly sponsor and organise events. The aim is to offer member companies the opportunity to use the independent platform of the Chamber, to promote their company, expand their customer portfolio and increase their visibility.

Membership categories

The main objective of the Chamber is the development of trade and investment between Spanish, Belgian and Luxembourg companies as well as enabling the dialogue with the European institutions. The Chamber offers its member companies a wide range of services including access to a large network of contacts and information of interest on the Spanish, Belgian and Luxembourg markets together with the European sector.

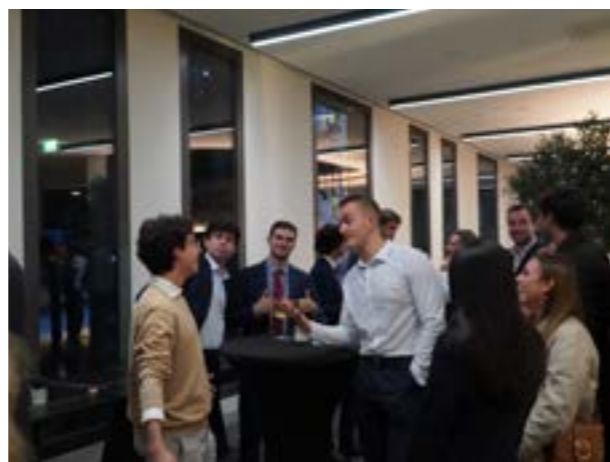

The Chamber has three membership categories with different fees adapted to the needs of all companies, from start-ups and SMEs to multinationals. Joining the Official Spanish Chamber of Commerce in Belgium and Luxembourg is the best way to establish contacts and explore potential collaborations with them.

The membership to the Chamber has general benefits for all members, with some exclusive benefits for higher categories.
