Migraine Friendly Workplace:

fostering inclusive and supportive environments

September 12th 12:00

Brussels

(Hotel NH Collection Brussels Grand Sablon,
Rue Bodenbroek 2, 1000 Brussels)

On September 12th, EMHA will present its Migraine Friendly Workplace project, with the aim to give **visibility to the stigma around migraine within the workplace, as well as to showcase the benefits the project brings to those companies inside the ESG** (Environmental, Social and Governance) on building favourable environments to those employees who suffer from this illness.

The European path to sustainability is nowadays having an impact on the market, using the regulation to propel a variety of initiatives, strategies and guidelines already approved. That's why it is essential that companies have access to all the information available on possible solutions to help you adapt to the fast-paced competitive market.
