MOBILITY PLAN

Integral Programme for
Qualification and Employment

The Mobility Plan

The Mobility Plan is part of the **Integral Programme for Qualification and Employment (PICE)** designed to improve the employability of young beneficiaries of the **Spanish National System of Youth Guarantee** by enabling them to gain work experience in European Union Companies.

Labour mobility plays an important role in reducing unemployment while providing young people with a key chance for personal development as well as a wider selection of professional opportunities. Therefore, this plan provides a tool that allows the selection of motivated and talented individuals for companies.

Benefits of collaborating

With the Mobility Plan of the **Integral Programme for Qualification and Employment (PICE)**, the Chambers of Commerce in Spain can help you to source young talent actively seeking work or internship opportunities within the European Union.

Young people can join your workforce with:

- High level of language skills.
- Training and work experience suited to your business' needs.
- The right attitude and motivation to embark on a new professional challenge abroad.
- The professional skills needed to work successfully.

How it works

The Chambers of Commerce of Spain will take great care to select the candidate profiles that best fit the needs of your company's requirements, while also providing them with mobility training.

- We carry out an analysis of the staff and skill requirements of your company in order to select ideal candidates for each part.
- We facilitate contact between you and young people with the qualifications and competencies required by your company.
- We carry out extensive monitoring while the young person is working with you.
- You will have a designated contact person from the Chamber of Commerce who will provide help and support wherever required with this enrolment process.

Apply for the Mobility Plan by sending the following form to your nearest Spanish Chamber of Commerce or via the following website:

www.programapice.es/mobility-plan

As a collaborating company, you will be able to obtain the **Seal of Commitment to Youth Employment**.
