
SEO, Content Creation and Content Marketing

Programme

February 12th and 13th of 2024

9:00 AM-11:00 AM

During the SEO, Content Creation and Content Marketing Workshop, we'll delve into the essence of Content Marketing, sharing best practices and unveiling the power of AI to enhance your efforts. Discover how AI can help you create captivating content, optimize for SEO, and craft compelling newsletters and landing pages. Dive into practical sessions covering various formats and channels while learning how AI writing assistants turbocharge your content creation process, with live demos and tips on maintaining brand voice. Finally, explore techniques to measure and analyze your marketing results effectively:

During the course we will cover:

1. **Introduction to Content Marketing:** Discover the fundamentals of content marketing and its strategic importance.
2. **Creation of Blogs optimized for SEO:** Learn to craft SEO-optimized blogs to boost online visibility and engagement.
3. **Creation of Newsletters:** Master the art of crafting compelling newsletters to captivate your audience.
4. **Creation of Landing pages:** Create high-converting landing pages that drive action and conversions.
5. **Content creation for Social Networks:** Develop captivating content tailored for various social media platforms.
6. **AI Writing Assistants:** Discover AI tools to supercharge your content creation. Gain valuable tips and best practices, while understanding the importance of human editing.
7. **How to measure results:** Explore techniques for effectively measuring and analyzing content marketing results.
8. **Q&A session:** Your questions answered.
